Course Description

This course enables students to develop their skills in producing and presenting art by introducing them to new ideas, materials, and processes for artistic exploration and experimentation. Students will apply the elements and principles of design when exploring the creative process. Students will use the critical analysis process to reflect on and interpret art within a personal, contemporary, and historical context.

Overall Curriculum Expectations

Creating and Presenting

- apply the creative process to create a variety of art works, individually and/or collaboratively;
- apply elements and principles of design to create art works for the purpose of self-expression and to communicate ideas, information, and/or messages;
- produce art works, using a variety of media/materials and traditional and/or emerging technologies, tools, and techniques, and demonstrate an understanding of a variety of ways of presenting their works and the works of others.

Reflecting, Responding, and Analysing

- demonstrate an understanding of the critical analysis process by examining, interpreting, evaluating, and reflecting on various art works;
- demonstrate an understanding of how art works reflect the society in which they were created, and of how they can affect personal values;
- demonstrate an understanding of the types of knowledge and skills developed in visual arts, and describe various opportunities related to visual arts.

Foundations

- demonstrate an understanding of, and use correct terminology when referring to, elements, principles, and other components related to visual arts;
- demonstrate an understanding of conventions and techniques used in the creation of visual art works;
- demonstrate an understanding of responsible practices related to visual arts.

Unit 5	The Art of Crafts	11 hours
Unit 6	Making a Living, Making Art (Cumulative Project)	12 hours

Unit Descriptions

Unit 1: But Is It Art?

In this introductory unit students will explore and reflect upon the meaning of art in various aspects of their lives. Questions will be posed such as: What is art? Who decides this? What determines the value of art? Students will consider the aesthetic value and the relationship between art and society. Students will address social and religious issues through the visual arts such as social justice, spirituality, and ethics. Student artists will explore the various materials and tools used to create art and will consider the impact on the value of the artwork. The drawing journal and related activities will provide the basis for further understanding and exploration.

Unit 2: Art by Design

In this unit, students will investigate several aspects of design. Initially, they will discover how the elements and principles work together to make a good design through two-dimensional and three-dimensional exercises. As well they will look at the role of design in our community and in the world by engaging in the creation of two-dimensional and three-dimensional applied designs. The relationships between form and function, form and content, as well as product and target audience will be discovered as students grapple with both the practical and ethical aspects of designing for our world. Careers in design related fields will also be explored. A variety of two-dimensional and three-dimensional materials and tools, such as paper, paint, marker, pencils, cardboard, glue, scissors, cutting knives, etc. will be used.

Unit 3: Fine Art – Express Yourself

In this unit the student will consider important relationships they have in their lives. They will explore and create images through two major works of art, one in two dimensions and one in three dimensions, using traditional and non-traditional materials. The students will extend the expressive possibilities of the elements and principles of design. Preliminary drawings and exploration of mediums will serve as the foundation for the finished products.

Unit 4: Media Arts and Popular Culture

Students will investigate the codes and conventions (e.g., camera angles, colour, text, sound, stereotypes, etc.) used to manipulate target audiences of popular culture. The students will look at a variety of commercial products such as music videos, fashion, toys, etc. and determine how each popular culture product is constructed to convey a certain message or to elicit a particular response from its audience. Discovery and studio activities will give students the opportunity to examine the specific impact of various constructed media and to create their own media texts.

Unit 5: The Art of Crafts

This unit respects the artistic intention and craft of the artisan. Original works in the textile arts, (weaving, appliqué, quilting, needlepoint, fabric painting), pottery techniques, jewellery, glass, papermaking, plaster and cement may be explored through discovery and selected activities. Teachers will utilize Canadian artisans and their crafts as the main resource of this unit. The cottage industry (folk home-based business) and careers in crafts from the past and the present will be investigated (e.g., The Bayeaux Tapestry, ancient pottery, Gothic stained-glass windows).

Unit 6: Making a Living, Making Art?

Students will consider many of the careers in the arts discussed throughout the course. They will select careers that appeal to them and conduct research using the Internet, local artists, or the print media. This culminating unit will involve a formal presentation to classmates and/or a school display. Visual images, artist samples and/or examples will be included in the presentation. As part of the presentation the students may create a culminating piece (their choice) using a technique, and/or medium they have learned while studying the career (e.g., a poster advertising the sale of glass bowl or creation of Fimo jewellery, medical illustrations, etc.).

Course Notes

The underlying continuum of the Grade 10 Visual Arts expectations is the emerging awareness of possible careers in the visual arts. The drawing journal and portfolio continue to be invaluable resource tools for the student artist as this course encourages exploration of a variety of art-making and art-viewing techniques. A teacher directed time-line will be developed throughout the course to help students understand the historical significance of the works of art they view, research, and use as inspiration. Whenever possible teachers should draw on local expertise to complement and enhance studio activities/discussions to give students post-secondary academic and career options in the visual arts. From Grade 10, students' Annual Education Plan should also include their tentative post-secondary destinations. This course may assist students in completing their plan while learning about possible options and choices, and the impact of their decisions on their educational and career goals. All students should be encouraged to develop and maintain a portfolio. Students will continue to refine their artistic skills, accumulate knowledge and experience new art-making processes. The WHMIS Safety Manual located in the school will provide information for the safe disposal of materials and is a must for art educators. The appropriate clean up, disposal, and use of art materials must be integrated into the process aspect of evaluation whenever possible. Responsibility, respect for materials and each other are part of the goal we envision for First Nations Schools.

Teaching/Learning Strategies

- brainstorming;
- video conference;
- interviewing;
- independent research (e.g., students explore and research a specific topic related to art history, art processes, and careers);
- application (creation of an artwork to demonstrate a specific function, portray a design concept, or communicate personal expression);
- presentation, ongoing oral, visual, and written presentation;
- viewing artwork, present art visuals to focus discussion regarding subject matter, content, use of the elements and principles of design, cultural influences, and styles;
- group display of art timelines;
- critiques, critical analysis of student, peer, historical, and contemporary artwork;
- exploration, experimentation with a variety of materials and techniques;
- drawing journal/information file, collection of visual and written information for art-making, research and experimentation;
- display, refinement and preparation of work for formal public display;
- portfolio, a collection of student works reflecting skills, knowledge, and understanding accumulated throughout the year/semester.

Assessment/Evaluation Techniques

Assessment Tools will include:

- Art Critiques (creating art critiques; personal reflections on the creative process);
- Art Journal;
- Art Portfolio (digitally generated);
- Artist Statements;
- Critical Analysis Process;
- Oral Presentation (recorded on video live from community and submitted and/or presented in person in video conference broadcasts to all communities, including student participation via synchronized internet chat and blogs sessions);
- Research process by documenting and recording findings;
- Student Self-Assessment (strategies to understand criteria such as specific skills; peer assessment by creating art critiques; personal reflections on creative process);

- Rubrics, marking schemes and anecdotal comments with suggestions for improvements.

Final Evaluations

- internet and online tests, quizzes;
- digital portfolio presentations;
- student organizing their own art show;
- formal presentations (video including audio art statement of specific artworks);
- video conferencing.

The assessment plan will include the following:

Personal Communication

- drawing journal/portfolio;
- self/peer assessment;
- student-teacher conferences via video conferences and webcam sessions;
- ongoing verbal feedback;
- critique (record reflections on experiences, plans for improvements, recommendations for changes).

Teacher Observation

- formal/informal.

Performance Assessment

- research project assigned artwork;
- assigned artwork;
- portfolio entries;
- drawing journal;
- presentation.

Accommodation

- working with a partner, peer helper
- ongoing feedback
- use of computers, Internet
- in art history and viewing activities, oral responses for testing, taped if necessary
- additional time
- use of scribe/translator
- use of specialized tools, materials
- modifications of expectations, IEP; Individual Education Plan
- offering alternative assignments
- extra time for assignments, both gifted and learning-disabled students

Special Note

Teachers are expected to be acquainted with students' Individual Education Plans (IEPs) and the unique learning characteristics of their individual students and to make the necessary accommodations.

Evaluation

The final grade will be determined as follows:

- Seventy per cent of the grade will be based on evaluation conducted throughout the course. This portion of the grade should reflect the student's most consistent level of achievement throughout the course, although special consideration should be given to more recent evidence of achievement.
- Thirty per cent of the grade will be based on a final evaluation administered at or towards the end of the course. This evaluation will be based on evidence from one or a combination of the following: an examination, a performance, an essay, and/or another method of evaluation suitable to the course content. The final evaluation allows the student an opportunity to demonstrate comprehensive achievement of the overall expectations for the course.

Program Planning

This course is offered to students living in isolated northern Ontario communities which do not have access to regular high school facilities, equipment, or teachers associated with secondary education. This course uses the internet for instruction, demonstration and research. It utilizes a student centered semi-virtual classroom which capitalizes on the strengths of internet program delivery to minimize the disadvantages of geographic remoteness.

Students are presented with instruction/activity via the internet. All lessons, assignments, questions and course material is presented in this manner, with approved print materials available as a student resource in each classroom. The student and instructor communicate via the internet, while a classroom mentor (a fully qualified teacher) assists students in completing tasks in a timely manner and provides tutoring as required.
